School food plays a critical role in the health and success of Helena's children. You are invited to a luncheon to share your comments, questions, and suggestions on school food in the Helena School District. The conversation will be facilitated by the Kid's Hunger Coalition and Sodexo with the Helena School District to discuss the meals currently being served to our students and the future of school food in our community. We want to hear from you. Let's build our plate together.
